Myka Precious Metals Trading LLC Responsible Sourcing Policy

Myka Precious, a precious metals trader, is dedicated to delivering high-quality products and services while upholding the highest ethical standards in responsible sourcing. We are fully committed to adhering to appropriate standards related to human rights, labor, environmental impact, and business ethics to ensure a responsible supply chain.

Myka Precious acknowledges that the extraction, trading, handling, and exporting of gold and other metals from conflict-affected and high-risk areas may carry significant adverse impacts. Recognizing our responsibility to respect human rights and avoid contributing to conflict, we commit to adopting, widely disseminating, and incorporating the following policy on responsible sourcing of minerals into our contracts and agreements with suppliers. This policy serves as a common reference for conflict-sensitive sourcing practices and enhances supplier risk awareness from the point of extraction to the end user. We pledge to avoid any actions that contribute to the financing of conflict and to adhere to relevant UN sanction resolutions or, where applicable, domestic laws enforcing these resolutions.

We encourage our suppliers and business partners to align with the standards outlined by the OECD, RJC COC Standard for Precious Metals Supply Chain, LBMA Responsible Gold Guidance, and DMCC Rules for Risk-Based Due Diligence in the Gold and Precious Metals Supply Chain.

As part of our responsibility, Myka Precious is committed to:

1. Refraining from gaining or participating in any transactions related to serious abuses, including inhuman and degrading practices, forced and child labor, human rights violations, and criminal activities.
    - We will immediately discontinue dealings with suppliers if we identify a reasonable risk that their sources are linked to any party engaged in the serious abuses defined above.
2. Not tolerating any suppliers who directly or indirectly support non-state armed groups through the extraction, transport, trade, handling, or export of minerals. This includes, but is not limited to, procuring minerals from, making payments to, or providing logistical assistance or equipment to non-state armed groups or their affiliates.
3. Not offering, promising, giving, or demanding bribes, and will resist any solicitation of bribes aimed at concealing or misrepresenting the origin of precious metals, or misrepresenting taxes, fees, and royalties paid to governments for the purposes of extraction, trade, handling, transport, and export.
4. Contributing to the elimination of money laundering and terrorist financing by establishing a robust management system in compliance with Anti-Money Laundering and Combating Financing of Terrorism standards.
5. Informing and reporting to the relevant authorities any suspicious individuals, entities, or transactions identified during the implementation of this policy.

6. Ensuring effective due diligence is conducted based on a risk-based approach before initiating any transactions, and continuously monitoring existing clients to assess and mitigate potential risks.
7. Maintaining accurate and adequate records of all precious metals transactions and activities, demonstrating that due diligence procedures have been strictly followed.
8. Providing training and education to relevant staff through formal education, seminars, and conferences on the provisions of this policy and responsible sourcing of precious metals.

As part of our Responsible Precious Metals Policy, Myka Precious is dedicated to

- Neither tolerate, contribute to, or assist in any form of torture, cruel or inhuman treatment, forced labor, unacceptable child labor, or other serious human rights abuses.
- Immediately suspend or terminate engagement with our counterparty if we identify a reasonable risk that they are sourcing from or connected to any party involved in the serious activities outlined above.
- Support initiatives to establish secure, transparent, fair trade, and verifiable gold supply chains from artisanal miners to the market.
- Never source from illegal mining operations.
- Not tolerate support to non-state armed groups that control mine sites, transport routes, or trade points or extort money or minerals.

All Myka Precious staff involved in the precious metals supply chain are required to comply with this policy and integrate it into the management system.
